

CLIMATE CHANGE FEELS **TOO BIG** TO FIX.

So we made it three small things a day. Meet **Challenge Tre3**, our free web app for real, measurable climate action.

364

UNIQUE CHALLENGES.

3 A DAY.

Across 12 categories: energy, water, food, transport, waste, biodiversity, community and more. That is around four months of daily action before anything repeats.

WHY IT MATTERS

Heating water is one of the biggest energy uses at home...

TAP DONE. WATCH REAL IMPACT GROW.

Every action converts into numbers you can stand behind: CO2 saved, litres of water, waste diverted, tree equivalents.

Your Impact

EVERY MILESTONE, A NEW ENDANGERED SPECIES TO MEET.

Your streak unlocks species like the Siberian Tiger, each with its story, habitat, and what is pushing it to the edge. Learn about them as you grow.

SEE WHAT YOUR IMPACT REALLY EQUALS.

Milestone badges translate your totals into things you can picture, like the plastic of roughly 200 bottles kept out of the stream.

STAY MINDFUL OF THE DAYS THAT MATTER.

World Oceans Day, Earth Hour, World Cleanup Day and more, built into the app with themed challenges when they arrive.

World Oceans Day

The ocean gives us half our oxygen. Today, cut plastic and save water.

TOGETHER SO FAR.

Our early members have already saved over 18,000 litres of water and completed more than 100 actions. Small on a spreadsheet. Massive as a habit. And this is just the start.
